

## Introduction

The TRG5500 Trigger Handle adds a gun-style handle with a scanning trigger to the MC55/MC65 Enterprise Digital Assistants (EDAs). It increases comfort when using the EDA in scan-intensive applications for extended periods of time.

For detailed information on the MC55 and MC65 EDA, refer to the *MC55 User Guide* or the *MC65 User Guide*.

## Install Trigger Handle Software on MC5574/90

In order to use the Trigger Handle with the MC5574/90, software installation is required. Download the *Trigger Handle Software V1.0* file from the Zebra Support Central web site: <http://www.zebra.com/support>. Follow the directions provided with the software and install the file onto the device using ActiveSync. Refer to the *MC55 Integrator Guide* for instruction on installing software.

Note that on MC55 devices with Windows Mobile 6.1, if installing MSR software, install the MSR software first and then install the Trigger Handle software.

## Inserting the MC55/65 into the Trigger Handle

Slide the MC55/65 into the Trigger Handle until it locks in place. The latches secure the MC55/65 to the Trigger Handle.

## Removing the MC55/65

To remove the MC55/65, press the release buttons and pull the MC55/65 forward.

## Scanning

To scan bar codes:

- ✓ **NOTE** A scanning application must be installed prior to scanning a bar code.

1. Start the MC55/65's scanning application.
2. Aim the MC55/65 at the bar code.
3. Press the trigger on the handle. The Scan/Decode LED lights and a beep sounds to indicate a successful decode.

For more information on MC55/65 scanner functions, refer to the *MC55 User Guide* or the *MC65 User Guide*.

## Charging and Communication

The Trigger Handle can be used to charge the MC55/65 and communicate with a host computer using either the Serial Charging Cable or a cradle, or connect to a peripheral such as a printer.

### Using the Serial Charging/Communication Cable

To charge the MC55/65's battery or communicate with a host computer while the MC55/65 is in the Trigger Handle, use the Serial Charging Cable setup below:

## Using a Cradle

**CAUTION** Do not place a Trigger Handle with an attachment, such as a Magnetic Stripe Reader (MSR) into a cradle. Remove the attachment before inserting the Trigger Handle into the cradle.

To charge the MC55/65's battery while the MC55/65 is in the Trigger Handle, use either the Single-Slot Serial/USB cradle or the Four-Slot cradle.

## Handle Extension Replacement

The TRG5500 includes a replaceable short handle extension. To change the handle extension:

1. Remove screw securing the handle extension.
2. Remove handle extension.
3. Place short handle extension over handle.
4. Secure short extension handle using screw.

Zebra reserves the right to make changes to any product to improve reliability, function, or design. Zebra does not assume any product liability arising out of, or in connection with, the application or use of any product, circuit, or application described herein. No license is granted, either expressly or by implication, estoppel, or otherwise under any patent right or patent, covering or relating to any combination, system, apparatus, machine, material, method, or process in which Zebra products might be used. An implied license exists only for equipment, circuits, and subsystems contained in Zebra products.

## Service Information

If you have a problem using the equipment, contact your facility's Technical or Systems Support. If there is a problem with the equipment, they will contact the Zebra Support Center at: <http://www.zebra.com/support>.

For the latest version of this guide go to: <http://www.zebra.com/support>.

## Warranty

For the complete Zebra hardware product warranty statement, go to: <http://www.zebra.com/warranty>.

## Troubleshooting

Problem	Cause	Solution
Scan line does not appear when trigger is pressed.	MC55/65 is not attached properly to the Trigger Handle and is not making contact with the connector.	Remove the MC55/65 from the Trigger Handle and reinsert.
	MC55/65 does not contain a scanning application.	Load a scanning application on the MC55/65. Refer to the <i>MC55 Integrator Guide</i> or <i>MC65 Integrator Guide</i> .
	Scanning application is not active.	Start the scanning application.
	MC55 Trigger Setting not installed or set properly.	See Install Trigger Settings Software on MC55/65 for instructions on installing the software.
MC55/65 battery does not charge when Trigger Handle is placed in a cradle.	Trigger Handle is not properly seated in the cradle. Power is not available to the cradle.	Remove the Trigger Handle from the cradle and reinsert. Ensure that power connections to the cradle are connected properly.
Cannot print to printer.	Printer cable not connected properly.	Ensure cable is connected properly to the printer and Trigger Handle.
MC55/65 does not wake from suspend mode when trigger is pressed.	The trigger only wakes the MC55/65 from the suspend mode if a scanning application is active.	Press a key on the MC55/65 to wake from the suspend mode.

Refer to the *MC55 User Guide* or the *MC65 User Guide* for specific troubleshooting procedures.

## Regulatory Information

This guide applies to Model Number TRG5500. All Zebra devices are designed to be compliant with rules and regulations in locations they are sold and will be labeled as required. Local language translations are available at the following website: <http://www.zebra.com/support>.  
For use only with Zebra approved and UL Listed mobile computers. Zebra approved and UL Listed accessories and/or Zebra approved and UL Listed/Recognized battery packs. Do NOT attempt to charge damp/wet mobile computers or batteries. All components must be dry before connecting to an external power source. Declared maximum operating temperature: 50°C.

## Health and Safety Recommendations

### Ergonomic Recommendations

**CAUTION** In order to avoid or minimize the potential risk of ergonomic injury follow the recommendations below. Consult with your local Health & Safety Manager to ensure that you are adhering to your company's safety programs to prevent employee injury.

- Reduce or eliminate repetitive motion
- Maintain a natural position
- Reduce or eliminate excessive force
- Keep objects that are used frequently within easy reach
- Perform tasks at correct heights
- Reduce or eliminate vibration
- Reduce or eliminate direct pressure
- Provide adjustable workstations
- Provide adequate clearance
- Provide a suitable working environment
- Improve work procedures.

### Power Supply

Use ONLY a LISTED, Type no. 50-14000 (5.4Vdc/ 3A) or PWRS-14000 (5.4Vdc/ 3A), Direct Plug-In Power supply, marked Class 2 or LPS (IEC60950-1, SELV). Use of alternative power supply will invalidate any approvals given to this unit and may be dangerous.

## Waste Electrical and Electronic Equipment (WEEE)

**English:** For EU Customers: All products at the end of their life must be returned to Zebra for recycling. For information on how to return product, please go to: <http://www.zebra.com/weee>.

**Français:** Clients de l'Union Européenne : Tous les produits en fin de cycle de vie doivent être retournés à Zebra pour recyclage. Pour de plus amples informations sur le retour de produits, consultez : <http://www.zebra.com/weee>.
