Ultra-durable smartphone with Qualcomm Snapdragon Octa-core

As one of the market leaders for rugged enterprise mobility, we build devices to meet the US Military Standard 810G rating that ensures protection against fall, drop, shock, vibration, dust, water immersion, extreme temperatures, high altitude, and a wide variety of extreme conditions. The brain of PM45, Qualcomm Snapdragon, has Octa-core 1.8GHz processor will provide unbeatable performance for any enterprise applications in the field. Its X9 LTE modem will give you up to 300Mbps downlink and 150Mbps uplink speed.

Experience the truly-Enterprise-tuned Smartphone

A consumer smartphone may be easy to use but its frailness and lack of security makes it unsuitable for the enterprise environment. Your business needs a smartphone that is fine-tuned for the accomplishments, job satisfaction and productivity of your workers, and that's where PM45 comes in. PM45 features fast roaming Wi-Fi, full SDK & API for enterprise-level customization, replaceable battery, Push-to-Talk function with loud speaker, etc. Both USB-C and Pogo-pin connector provide multiple expansion options widely required in the enterprise environment, like a charging cradle, multi-slot battery charger and more.
